

## Newsletter

### Who we are

- We are a Social Group that meets to play social table tennis in a relaxed and friendly environment.
- Our members hail from a variety of cultures, backgrounds, abilities and ages.
- We are all inclusive, welcome new members, help beginners get started & learn the game.
- We provide a safe and caring environment with First Aid Trained Personnel at hand.
- We hold several social events throughout each year, either free or of minimal cost to our members.

### What is this all about?

#### Greetings Members!

In order to keep you up-to-date with our group's activities we decided to introduce a newsletter which, we hope, will be distributed electronically in order to minimize costs. We, however, will supply you with a hard copy, if you do not have an email address.

#### Why a Newsletter you may ask.

- We can reach *All Members*, not just those present at a time of an announcement.
- We will keep *Disruption to Games* to the minimum, as this method eliminates frequent announcements.
- There will be less "*Did I Hear Right?*" "*Do I Remember Right?*"
- We can reach a *wider audience*, interested in our activities.

### Announcements

#### First Aid Training

The duty of care principle dictates that we must ensure there are members qualified in First Aid, ready to step in and help, if and when an accident happens. The age profile of our collective membership is creeping up. The ball has already been set in motion and further details will follow soon.

#### Ambulance call

It has been stated in the past and I would like to confirm that our policy is to call an ambulance, if warranted. If you are not a member you must bear in mind that a single ambulance call will cost you many times more than your annual subscription. Talk to your committee members if there are any concerns.

#### Electronic Distribution of our Newsletter

We can issue hard copies to any member who has not access to the internet however electronic copies can:

- be in colour with no extra cost to our club
- reach our members quickly and with certainty
- remain in your files for future reference
- easier to read, at your leisure

### Member Contributions - Creative Ideas

We welcome contributions and suggestions for this Newsletter and interesting Tit-Bits
